

# ENERGIZE COLLEGES SPRING 2020 COHORT

---

Strategic Energy Innovations seeks students interested in being part of the Energize Colleges Spring 2020 Cohort.

*This program is free and accessible to all Cal students.*

## ABOUT SEI & ENERGIZE COLLEGES

Headquartered in the San Francisco Bay Area, Strategic Energy Innovations ([www.seiinc.org](http://www.seiinc.org)) is a non-profit organization with a 20-year history, dedicated to actions that sustain our planet. The Energize Colleges program ([www.energizecolleges.org](http://www.energizecolleges.org)) aims to empower higher education institutions to meet their current and future energy challenges.

The goals of the *Energize Colleges* Cohort are to:

- Connect students to internship opportunities in the green energy sector and facilitate networking opportunities with professionals working in this field
- Provide skills-based training that will help students gain a better understanding of entry-level careers such as energy auditing, institutional energy manager, and green building designer or constructor

Cohort participants will meet four times over the course of the spring semester 2020 to participate in [trainings](#) and hear guest speakers address topics such as energy storage systems; solar design, sales, and estimation; and environmental controls technology.

This opportunity is geared towards students with a strong interest in an environmental career who want to strengthen their knowledge of the energy sector and better understand what specialized skills that will serve them in building a career after graduation.

Participants will be required to attend all four trainings; exact dates will be announced in January 2020 and will be based on participant availability as stated in the application cover page.

---

## APPLICANTS MUST:

- Be a currently enrolled graduate or undergraduate student pursuing an environmental, energy, engineering, or related degree

## DESIRED QUALIFICATIONS:

- Experience or interest in green energy and energy efficiency
- Strong desire to work in an environmental field and/or energy sector after graduation

---

## TO APPLY

Applications require a complete cover page (below), a resume, and a brief cover letter outlining why you want to be a member of the Energize Colleges Cohort and what you hope to learn; send all three to Energize Colleges UC Berkeley at [CalEnergizeColleges@gmail.com](mailto:CalEnergizeColleges@gmail.com).

Applications are accepted on a rolling basis.

Campus Name: \_\_\_\_\_

Major: \_\_\_\_\_

Expected  
graduation: \_\_\_\_\_

What days would you be available in spring 2020 to attend trainings? (write "available" for available time blocks. Do not use an "X").

	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday	Sunday
9-11 AM							
11 AM -1 PM							
1 - 3 PM							
3 - 5 PM							
5 - 7 PM							
7 - 9 PM							

What workshop topics interest you most (choose 3)?:

- Energy Auditing
- Environmental Controls Technology
- Energy Storage
- Installation and Maintenance
- Solar Design, Sales, and Estimation
- Energy Engineering
- Building Construction and Architecture
- Energy and Environmental Management

*Learn more about what each of these topics cover [here](#).*
