

LITHOS ENGINEERING IS SEEKING A FULL-TIME STAFF ENGINEER

Lithos Engineering was formed with the vision of serving our communities by providing our clients and their projects with recognizable value through prudent site evaluations, constructible solutions, and an understanding of project risks. Lithos focuses on geotechnical, tunnel, trenchless, and geological engineering and design services through innovative, collaborative, client focused consulting uniquely tailored to suit the needs of our clients and their projects.

The Successful Candidate Will:

- Conduct routine data collection and analysis to support geotechnical, geological, and tunnel/trenchless designs.
- Oversee geotechnical investigations including drilling, well construction, field mapping, and other field work
- Document project related activities in the field and office using electronic and written documentation.
- Perform design calculations under the supervision of a Professional Engineer
- Create design and construction drawings using AutoCAD
- Draft boring logs from subsurface investigations
- Assist with report preparation
- Provide other tasks to support project engineers and project managers

Minimum Requirements:

- Master's degree in Geotechnical Engineering, Geologic Engineering, or Civil Engineering preferred
- 0-2 years of related work experience
- Passed the Fundamentals of Engineering Exam
- Strong attention to detail with excellent analytical, judgment and problem-solving capabilities
- Excellent written and verbal communication skills
- Strong computer skills including proficiency in all MS Office software, AutoCAD, and various engineering software
- Have reliable transportation to access job sites and a valid driver's license in good standing

Compensation for this position is commensurate with experience and includes excellent benefits such as paid PTO, health insurance, retirement savings, and gym and cell phone reimbursement. The ideal candidate will fill a position is location is in Denver, CO office.
