

Tenure-Track Assistant Professor in Geotechnical Engineering

The Department of Civil and Environmental Engineering at the University of Massachusetts Amherst invites applications for a tenure-track faculty position at the assistant professor level in the area of Geotechnical Engineering. The appointment is expected to begin September 1, 2020. We seek an individual that can address national and international coastal resiliency and renewable energy challenges in support of a department-level focus on resilient civil infrastructure systems. Specific areas of interest include but are not limited to coastal engineering, offshore geotechnics, geohazards, and soil-structure interaction.

The candidate should have graduate and undergraduate teaching interests that draw from one or more of the following areas: soil mechanics, coastal engineering, offshore geotechnics, soil-structure interaction, and/or cross-disciplinary courses across program areas on coastal resiliency and renewable energy. Applicants must have a Ph.D. in Civil Engineering or a closely related field or anticipate such a degree by August 2020. Salary will be commensurate with qualifications and experience.

As a campus with an increasingly diverse student body, we are looking for candidates who can operate effectively in a diverse faculty and student community, and who value collegiality, collaboration, achievement, and integrity. We encourage applications from women, minorities, and individuals with a commitment to mentor under-represented demographics within engineering. We are committed to helping all constituents reach their full potential, creating best-in-practice operations to support faculty scholarship and fostering excellence in student experiences inside and outside our department.

The Department of Civil and Environmental Engineering has 27 full-time, tenure track faculty members and approximately 120 graduate students and 330 undergraduates. The department's FY 19 research expenditures exceed \$13 million/year. Additional information about the Department can be obtained at cee.umass.edu.

Review of applications will begin on December 15, 2019, and continue until a suitable candidate is identified.

The University is committed to active recruitment of a diverse faculty and student body. The University of Massachusetts Amherst is an Affirmative Action/Equal Opportunity Employer of women, minorities, protected veterans, and individuals with disabilities and encourages applications from these and other protected group members.
